October 4, 1988

TO: Susan Linner, Permit Supervisor

FROM: James S. Leatherwood, Reclamation Soils Specialist *W*

RE: New Lease U054762, Second Submittal, Genwal Coal Company,
Crandall Canyon Mine, ACT/015/032, Folder #2, Emery County,
Utah

Summary

The proposed New Lease U054762 submittal, received August 15, 1988, has been reviewed. The submittal cannot be considered complete at this time. The Mining and Reclamation Plan (MRP) does not contain a copy of the required public notice advertisement or a cultural resource survey of the proposed lease area. The MRP plates 2-1 and 3-4, lease 054762 boundaries, are not consistent with plate 2-2 and 3-10.

Recommendations

UMC 783.24 Maps: General Requirements - JSL

The permit boundary delineation for lease U054762 on Plate 2-1 and 3-3 is different than plates 2-2 and 3-10. The MRP must include the correct legal permit lease boundary.

UMC 786.11 Public Notices of Filing of Permit Applications - JSL

The MRP must include a revised public notice newspaper advertisement to include the new lease area, U054762. This public notice must contain all pertinent information as required under UMC 786.11.

Other Agency Comments

The Division of State History (see enclosed) recommends that a cultural resource survey of the areas previously not surveyed be conducted to make a determination on historic properties.
